

Ash Taylor

Contract Senior JavaScript/Typescript Developer

a@zi.vc | 07515349256 | [Github @zivc](#)

Profile

Experienced front-end developer based in SE London. Available for either remote or onsite contracts both, inside IR35 and outside IR35.

Current Position

Itriom : Consultant December 2021 - April 2022

Small start-up building a platform (React, Typescript, GraphQL, ChakraUI) for UHNWI (£1bn+) to connect and promote ESG Initiatives based around UN SDG goals. Examples such as investing in wind farms, or improving literacy in impoverished areas.

Previous Positions

Spotlight Sports Group : Consultant September 2021 - December 2021

Introduced new features on two neglected brands, MyRacing and FreeSuperTips. Both sites had heavy uses of React and Next.JS.

Amido : Consultant March 2021 - June 2021

The Gym Group - Project kick off discovery phase with Amplience CMS and Next.js

[Hackney.gov.uk](https://hackney.gov.uk) - Single SPA micro-services front-end with React

JP Morgan & Chase : UI/UX Developer January 2020 - December 2020

CIB Restricted Markets (FX desk) - Prototyping and sketching UI/UX solutions as proposals to new systems for the trading of restricted currencies.
CIB Passive Currency Overlay - Re-architected the front-end project for PCO removing bad practices and increasing performance with React.

During my time at JPMC I oversaw the work given to, and output by more junior members of the team, plus other contributions from members who's primary discipline wasn't JavaScript.

NatWest Markets : *Senior Consultant* February 2019 - December 2019

CurrencyPay - implemented MFA for users of online banking FX application, plus house keeping on other areas of the CurrencyPay project with React, Redux Sagas

CurrencyPay Developer Portal - guided a graduate on the production and development of a static website to show off developer APIs.

At NatWest, on the developer portal application I led a small team of graduates on implementation and production of static sites using React as part of their placement work from M3 Consulting.

Salmon : *Senior Consultant* October 2018 - December 2018

Developed a website for a Dutch fitness company on SAP Hybris and spent time bringing the project into 2019 from 2010.

Excelian Ltd : *Senior Consultant* November 2017 - August 2018

Nordea - Housekeeping for a Swedish bank, TypeScript, Angular2 -> Angular5 upgrade, RxJS, React, MobX, Redux, d3, SinonJS

WME-IMG / IMG Gaming : *Front-End Developer* April 2017 - November 2017

IMG DDE - Continuation from the Livestream gig (below), Vanilla JS, AngularJS, MySQL, React, AWS, SASS, Mocha/Karma

As the most senior member of the Front-End team a large portion of my time was spent guiding and supporting other members of the team to ensure robust and quality code was produced through to production.

FIS Global / SunGard Financial Systems : UX/JavaScript Developer July 2014 - March 2017

APT Enterprise - Risk Management suite, full stack. KendoUI and Angular on the front-end. NodeJS (SailsJS) [Socket.IO](#), RabbitMQ, MySQL on the server side. WebDriverIO and Bamboo for testing.

Sole Front-End UI/UX developer representing the business unit. My duties also included supporting non-JS developers on other projects with JS best practices and solutions to problems. Also submitted code back upstream to generic UI Toolkit providers in the business.

TOAD : Contract Lead Front-End Developer June 2014 - March 2015

Global {M} Recruitment Website - SVG animations, Vanilla JS, Node, LESS
Goalmouth - full stack, JS, Node, MySQL, Enetpulse, AngularJS

Livestream : Dev lead & Front-End Developer July 2013 - June 2014

IMG DGE - B2B platform for video rights for mostly gambling purposes.
AngularJS, LESS, Node, MySQL, Google App Engine (GCP), d3, Bootstrap

Reactive : Permanent Senior Front-End Developer February 2013 - July 2013

Various agency style projects such as Tesco Real Food, British Airways amongst others.

Guxvu Ltd : Self-Employed August 2011 - January 2013

Short term contractor for various companies and projects, some notable examples;

[Share.com](#), Deutsche Bank, British Gas, BT Wifi, BT Global Services, IHG Merlin, Massey Ferguson, O2 Priority, iTunes Festival, Thomson Reuters

Iris Digital : Permanent Front-End Developer January 2010 - August 2011

Various projects for Sony Ericsson, Volkswagen, Unilever and others

Candi : Permanent Junior Front-End Developer June 2008 - December 2009

Morrisons, John Lewis Fashion launch

dotGroup Plc (formerly known as Ellipsis Media) : Permanent Junior Front-End Developer March 2007 - February 2008

Awards

Sure Men Fast Cash Races (Iris Digital) :

IPM gold award in the category for 'Healthcare, Fashion, Beauty' in 2012.
